Correction to: Information Systems Frontiers https://doi.org/10.1007/s10796-022-10295-0

- 1. To avoid confusion, all abbreviations "GQL" throughout the text should be standardized as "GraphQL", and the word "Graph Query Language" in the first sentence of the abstract should be standardized as "Graph + QL (Query Language)". Also, it should be emphasized that the "Neo4j GraphQL Library" (with Cypher) is one of the necessary components.
- 2. Due to a typesetting mistake, the title of Section 4.1.2 Spider Dataset should be "4.1.2 Other Datasets used to Test the Effect of the Model".

The original version has been corrected.
